Work Experience

Rocket Factory Augsburg, Operational Software Development Intern — Mar 2026 – Jun 2026

- Designed and implemented a full data processing workflow to calibrate rocket engine pressure sensors, from data extraction and parsing to database integration and graphical presentation.
- Resolved bugs and implemented feature requests from internal users across all major internal applications.
- Developed Ansible pipelines for SSH key rotation, package updates and Ubuntu OVAL based security scans.
- Maintained and streamlined Docker images for deployment and development environments.

Education

Sapienza University of Rome, Master's Degree in Computer Science — Sept 2024 – Present

- Average: 27.8/30
- Thesis: Distributed Task Offloading in Multi-Orbit Satellite Computing (*work in progress*)
- **Coursework:** Cybersecurity, Data Science, Computer Systems (in English)

Sapienza University of Rome, Bachelor's Degree in Computer Engineering — Sept 2021 – Dec 2024

- Thesis: Current Monitoring System with Arduino and Hall Effect Sensor
- **Coursework:** Engineering, Computer Science (in Italian)

Projects

Keystroke Dynamics Recognition *(Cited 3 times, including in IEEE research)* — report

- Created a comparative study of three statistical keystroke-dynamics authentication models. Evaluated their performance with FAR, FRR, EER and visualized the results via ROC curves.

Automated Detection of Security-Sensitive UI Elements — report

- Designed a three-stage pipeline using UI-CTX and Graph Neural Networks to automatically identify and tag security-sensitive UI widgets for Clickshield.

AWS Blog App Deployment and Testing — report

- Designed and deployed a scalable, fault-tolerant, three-tier blog platform on AWS. Tested the platform with JMeter.

Technical skills

Languages: Python, C, Bash, HTML/JS/CSS, Typescript, React, FastAPI

Data Management: SQL, PostgreSQL

Platforms: Git, Linux, Docker, OPNSense, AWS

Support Tools: JMeter, Makefile, IDA disassembler

Languages

Italian: Native

English: C2

German: A2
